SPOT THE GHOST

ACTIVITY 1

Materials:

2 paper plates, colours/paints, googly eyes, scissors, glue, candy

Directions:

Trace the shape of your monsters mouth onto the plate and then cut it out. Make it large enough so you can grab candy in and out of it. Next, decorate the monsters using whatever kind of materials you have available.

Take another paper plate and glue it to the back of your monster. Place the glue around the edge of the paper plate and glue together.

Play some games like counting the candy inside the monsters mouth, guessing how many candies will land in the mouth or throwing candies into the mouth.

ACTIVITY 2

Materials:

White/Black paper, scissors, glue, cotton buds, pencil

Directions:

Trace a skull on the white paper and cut it out. Attach it to the top of the black paper.

Take the cotton buds and arrange them into a skeleton, then glue them down.

Name your skeleton and display it!

ACTIVITY 3

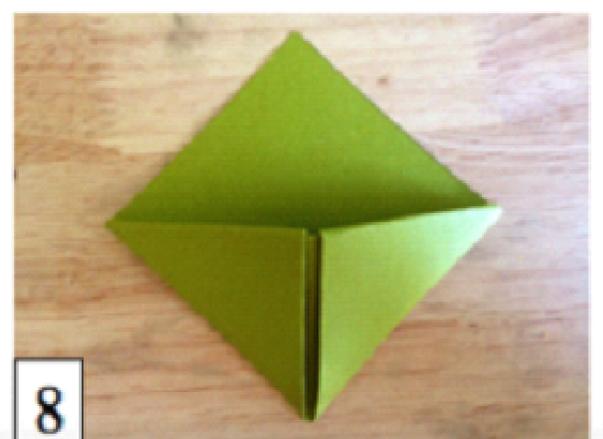

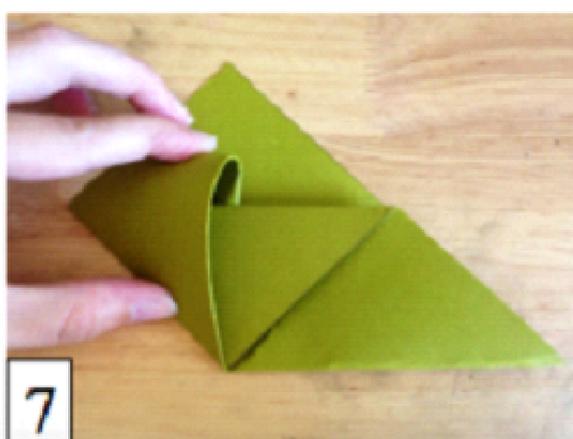

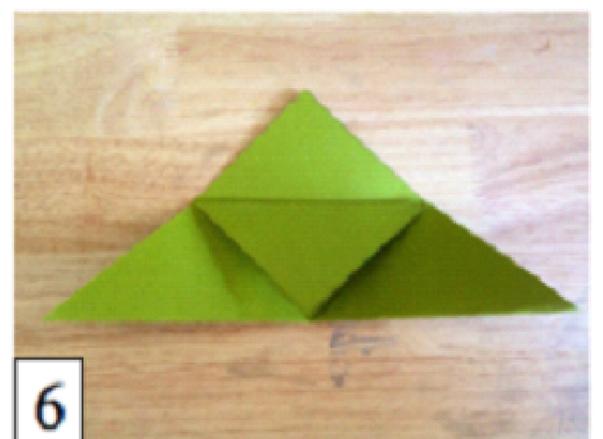

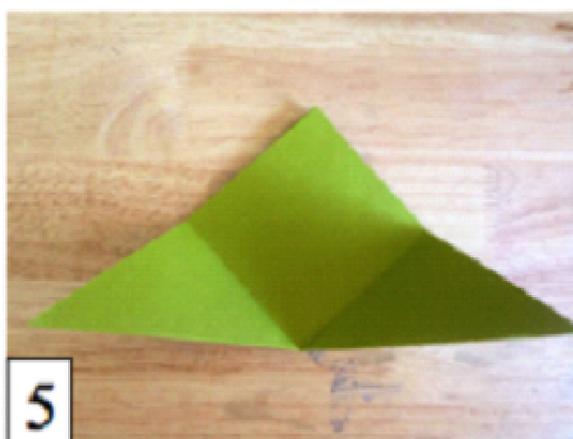

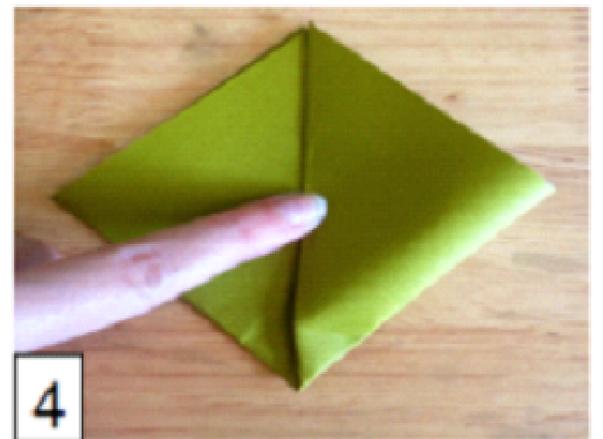

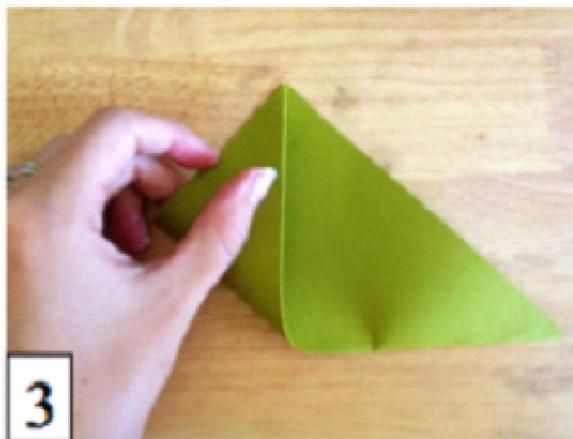

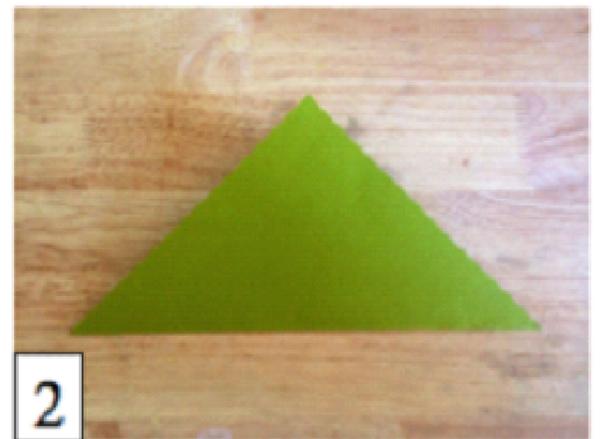

Materials:

Square of coloured paper, other coloured papers for decoration.

Directions:

Fold the paper as per photos and then decorate with eyes, ears, nose and teeth!

HALLOWEEN HUNT

Is it a trick or is it a treat, the first clue is hiding where you put things on your feet.

Look for clues but don't get stressed, you'll find the next clue where you get dressed.

Close your eyes and snuggle up tight, its where you go to sleep at night.

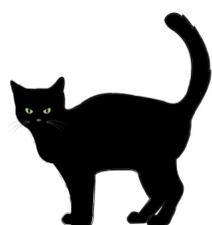

What Halloween fun, this can't be beat, the next clue is hiding where you eat.

I know you can find it if you just look, the next one is hiding with your books.

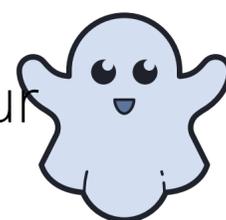

School can be fun its never a drag, the next one is hiding near your school bag.

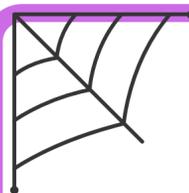

This next place helps stop food growing old, hurry up quick its very cold.

Halloween thrills run you off your feet, the next clue is hiding where you brush your teeth.

Don't keep watching until your eyes get square, the next one is hiding very near there.

Where Mammy and Daddy lie down to rest, to find this one, just do your best.
